BUSY WITH SETTLEMENT.****NEW YORK MARKET IRREG-  
ULAR.****Missouri Pacific Continued to Ad-  
vance Under Steady Buying—  
Railroad List Dull.****REDFERNS SPECIAL.**

New York, April 10.—The London Stock Exchange was still busy with the settlement-to-day and the business in American shares was very restricted. The tone upon the whole was fairly good, although most of what buying there was apparently came from New York. There was little public interest in the market and very trifling changes in the general list or contracts. In view of the payment of the installment on the way home, money in the open discount market was at par, except for a slight premium on foreign issues presented little feature of interest. Business generally was dull and markets inactive.

The local market was what the street expected it to be. The tone was dull, but there were some notable exceptions. The official announcement that Kish, Leib &amp; Co. had purchased from the Three Avenue 25c stock its bonds unconditionally guaranteed in principal and interest by the corporation caused a sharp advance in Three Avenue, which was secured at 105, and a limited dividend on the stock by the Metropolitan, but no definite information of such a course is yet to hand.

Missouri Pacific continued to advance under steady buying—Railroad list dull.

**CHESTERFIELD AND OHIO**

Preferred and Missouri Pacific were all strong on what was evidently good buying, while the rest of the railroad list was dull and seemed to fade. Third Avenue ended strong with a small gain, and the market indicates some confidence in the fact that the stated stocks continued to work up to the limit. The railroad list upon the whole was dull during the day, but there was good buying on B. &amp; O. preferred. It looked from the movement of the common stock that the buyers of the strength in the preferred. New York common was bought by the businessests so confident that they had no time to wait for any amount of long stock buying, excepting quite the boldest in the market.

**NEW YORK STOCK QUOTATIONS.**
